

EBARA

Looking ahead,
going beyond expectations

Ahead  *Beyond*

Japanese Technology since 1912

EN 733 Centrifugal Pumps

Model **GS**

EBARA

World leading efficiencies from a world leading pump manufacturer.

● *Designed by Ebara in Japan*

● *Manufactured* in Ebara factories*

* Major pump end components.

● *Assembled by Ebara in Australia*

Up to 150-400

Substantial stock holding of components in our Melbourne warehouse for reliable supply.

- High efficiency hydraulic design ($MEI \geq 0.6$ all models)
- Cast iron / Bronze / Stainless steel construction
- Front & rear bronze wear rings
- Pump dimensions to EN733
- SiC/C/EPDM Burgmann seal
- 16 bar casings [to ISO5199] (24 bar hydrostatic test pressure)

The GS is a versatile high quality end suction pump to EN733, and with 44 models available there are pumps suitable for many applications and duties wherever water needs to be transferred or boosted.

- Water supply & pressure boosting
- Building services & cooling towers
- Industrial water supply
- Irrigation, etc.

Range

- 44 Pump models
- Nominal impeller diameters from 125 to 500 mm
- Discharge sizes from 32 mm to 200 mm
- Flows to 1300 m³/h; Heads to 150 m
- Motor power required - 1.1 to 220 KW for 2 Pole; 0.55 to 355 kW for 4 Pole

Model code: 80-250
 Discharge size - mm  Nominal impeller diameter - mm

EBARA

Other quality Ebara commercial & industrial pumps available in Australia include:-

Submersible sewage
& waste water pumps

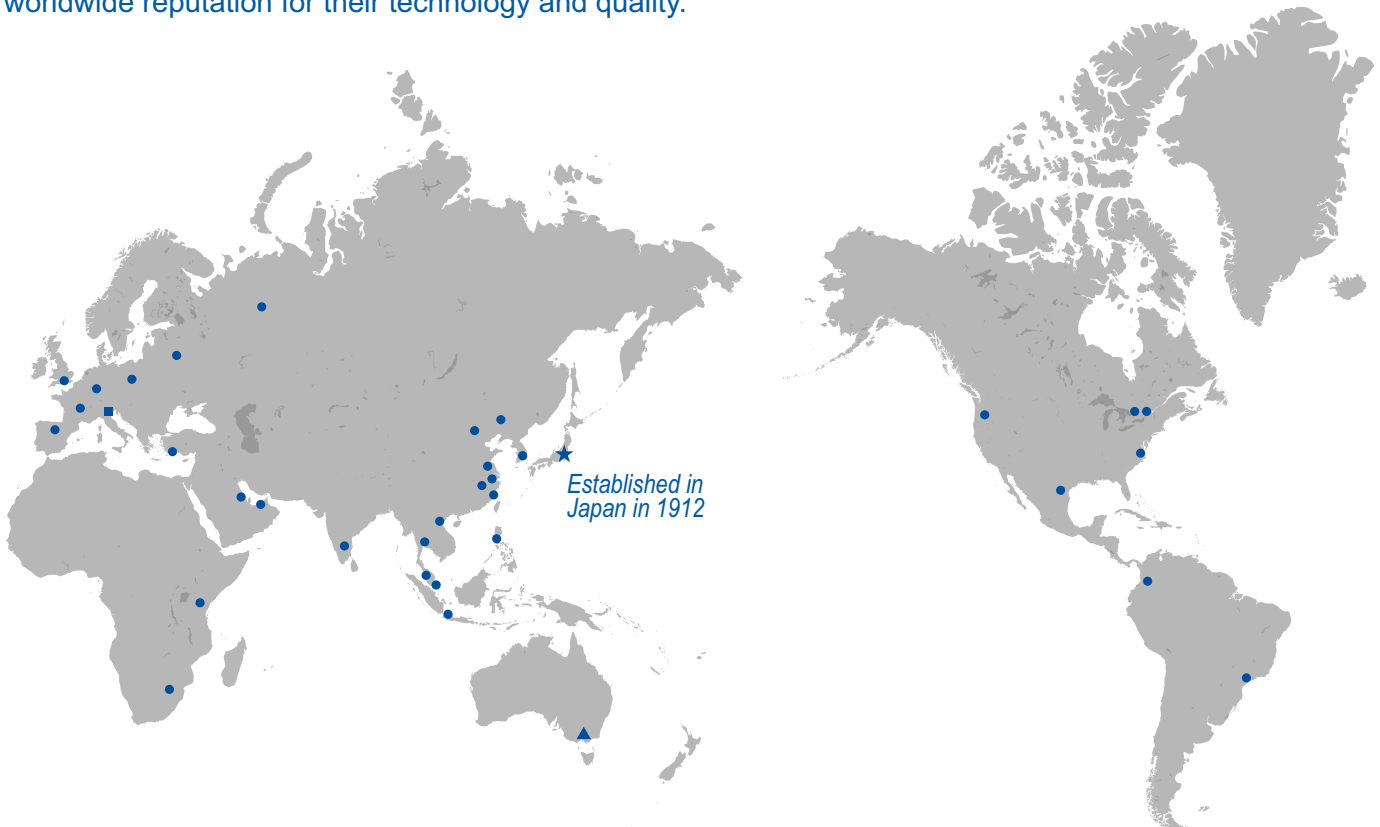

Vertical multistage pumps

Stamped stainless steel
end suction pumps

Ebara Corporation was founded in Japan in 1912 as a manufacturer of pumps. Today, as a group, it consists of more than 100 companies in six continents with a workforce of more than 19,000 people, and with company owned and Japanese managed factories in eight countries covering 4 continents. The huge scale of production and distribution is matched by a constant commitment to research and design of new products and the modern technologies for manufacturing them. Ebara products have gained a worldwide reputation for their technology and quality.

For over 30 years Ebara pumps have been sold and used in Australia, satisfying many customers and gaining a reputation for their quality and reliability. Ebara Pumps Australia Pty Ltd was established in 2000 to better service the market with an increasing range of quality products. A strong nationwide network of dealers support the sales and service of our extensive range of products.
